

MANNARINO[®]

SYSTEMS & SOFTWARE INC.

RPAS Software Certification Webinar

April 17, 2019

National certification authorities are in process of defining new regulations concerning Remotely Piloted Aerial Systems (RPAS)/drones. Some of these new regulations include, or are expected to include, Design Standards for the RPAS including their subsystems and software. This webinar will focus on systems and software development processes which can achieve certification authority design approval. We will also discuss how to ensure your software is ready for certification and how to minimize certification and development costs.

Presenters:

John Mannarino

President of Mannarino Systems and Software Inc

Amanda Melles

SW/AEH Design Approval Appointee (DAA) for MANNARINO Design Approval Organization (DAO)

Duration: 30 minutes

Date and time: April 17, 2019 at 1:30 pm EDT

Registration: In order to register, please complete the registration form [here](#).
