

EMBEDDED SOFTWARE DEVELOPER

Corporate Description

MANNARINO Systems & Software Inc. is a leader in providing safety-critical systems & software engineering services to the aerospace, defense, space, simulation & power generation industries. We work with many of the top players within their industries giving our employees exposure to the most interesting and challenging development projects. This stimulating and invigorating working environment allows our team to be at the technological forefront constantly broadening their expertise and honing their skillset to fulfill the ever-growing global high-tech market needs.

The MANNARINO culture is focused on high quality, hard work, professionalism and team work within a highly respectful, motivating atmosphere geared towards long-term business growth.

As a member of our team, you will benefit from:

- a comprehensive group insurance and RRSP plan
- a flextime policy with paid overtime
- discretionary bonuses
- a fitness reimbursement program

MANNARINO is a privately-held Small & Medium Size Enterprise (SME) and was recently awarded the AIAC's Innovation Technology Award

Career Opportunity and Primary Roles / Responsibilities

We are currently seeking software engineers/analysts to support the development of embedded software for several on-going Aerospace projects including Flight Management Systems and Control Display Units. The positions are based in Kanata, Ontario.

Required Competencies

- Bachelor's degree in related engineering disciplines from an accredited institute (Computer science or software engineering preferred)
- Interest in embedded development/integration
- Desire to contribute to aircraft safety by developing high quality software as part of our team
- Experience with development in Ada
- Experience with C and C++ Programming Languages
- Familiar with PowerPC development environment
- Knowledge of SVN and DOORS
- Knowledge of Rhapsody an asset

Miscellaneous Requirements

- Ability to communicate effectively in English (oral and written)
- Ability to work in a project-oriented environment
- Occasional travel required to customer sites (usually within North America)
- Due to contractual obligations, must be a Canadian citizen or permanent resident

At Mannarino, we believe that passion and a desire to learn is crucial. Diversity of thought and experiences leads to innovative solutions and creativity. This is why we would like to encourage all those interested to apply.
