- regular company outings

MANNARINO is a privately-held Small & Medium Size Enterprise (SME).

Career Opportunity and Primary Roles / Responsibilities

We are currently seeking highly-motivated system engineers for a new exciting Unmanned Aircraft System (UAS) project.

Interfacing with customer and other team members the candidate must be able to work independently in a dynamic, fast-paced development/certification program. Excellent communication skills will be required.

Required Competencies

- Systems engineer with 5+ years of experience in aerospace, defense or UAS development projects
- Experience with UAS Management Systems including:
 - Operating Environment Management
 - Mission Preparation
 - Mission Execution
 - Vehicle Communications
 - Vehicle Identity and Authorization
- Aerospace experience :
 - Aerospace systems engineering development process (ARP 4754A)
 - Experience in capturing system requirements
 - Experience in ARP4761 (FHA, FTA, PSSA, FMECA, etc)

Miscellaneous Requirements

- Ability to communicate effectively in English (oral and written)
- Occasional travel required to customer sites (usually within North America)
- Available full time

At MANNARINO, we believe that passion and a desire to learn is crucial. Diversity of thought and experiences leads to innovative solutions and creativity. This is why we would like to encourage all those interested to apply.
